INTRODUCTION

Our project is an interactive educational game designed for children to make learning more fun, engaging, and exciting. The game is divided into three different planets:

Numbers Planet

Letters Planet

Animals Planet

FEATURES

Stars Reward System

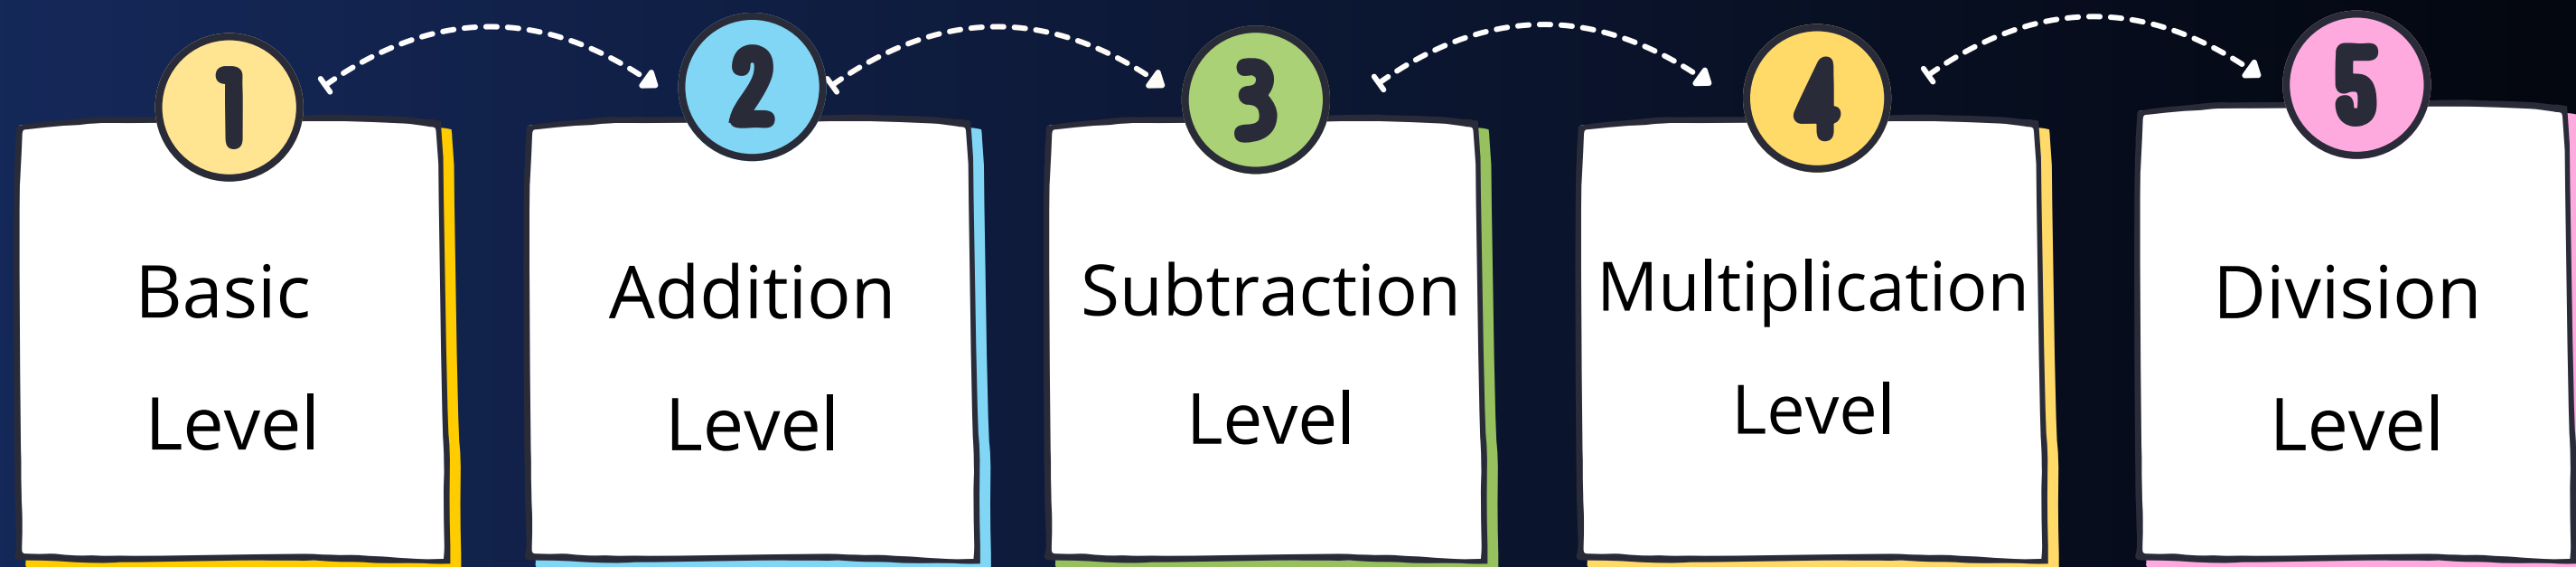

Audio Pronunciation

Interactive Learning

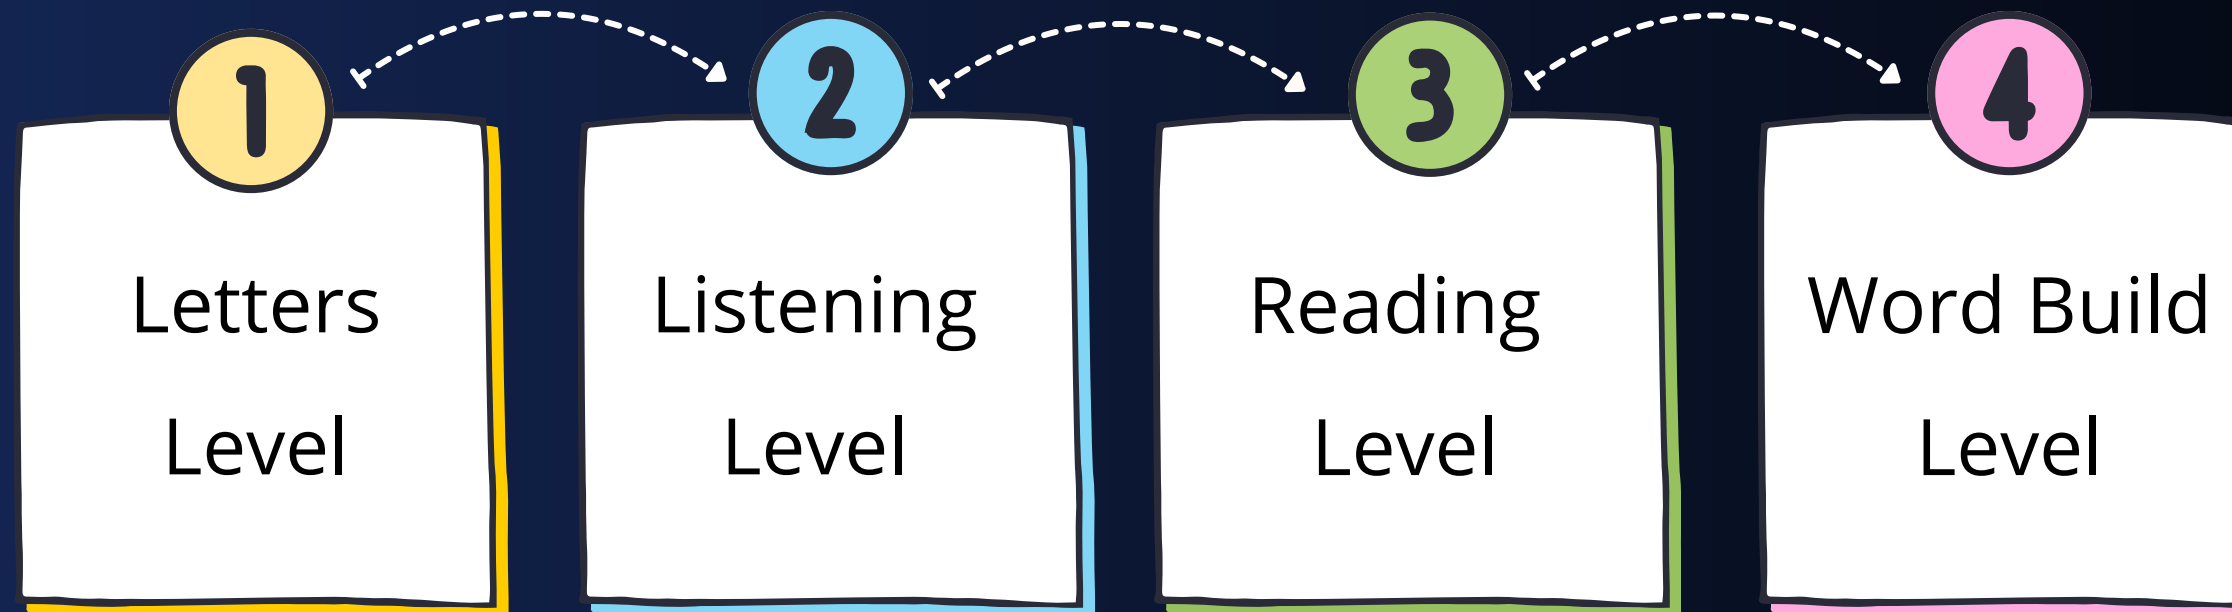

NUMBERS PLANET

Numbers Planet consists of 5 different levels designed to gradually improve children's learning skills.

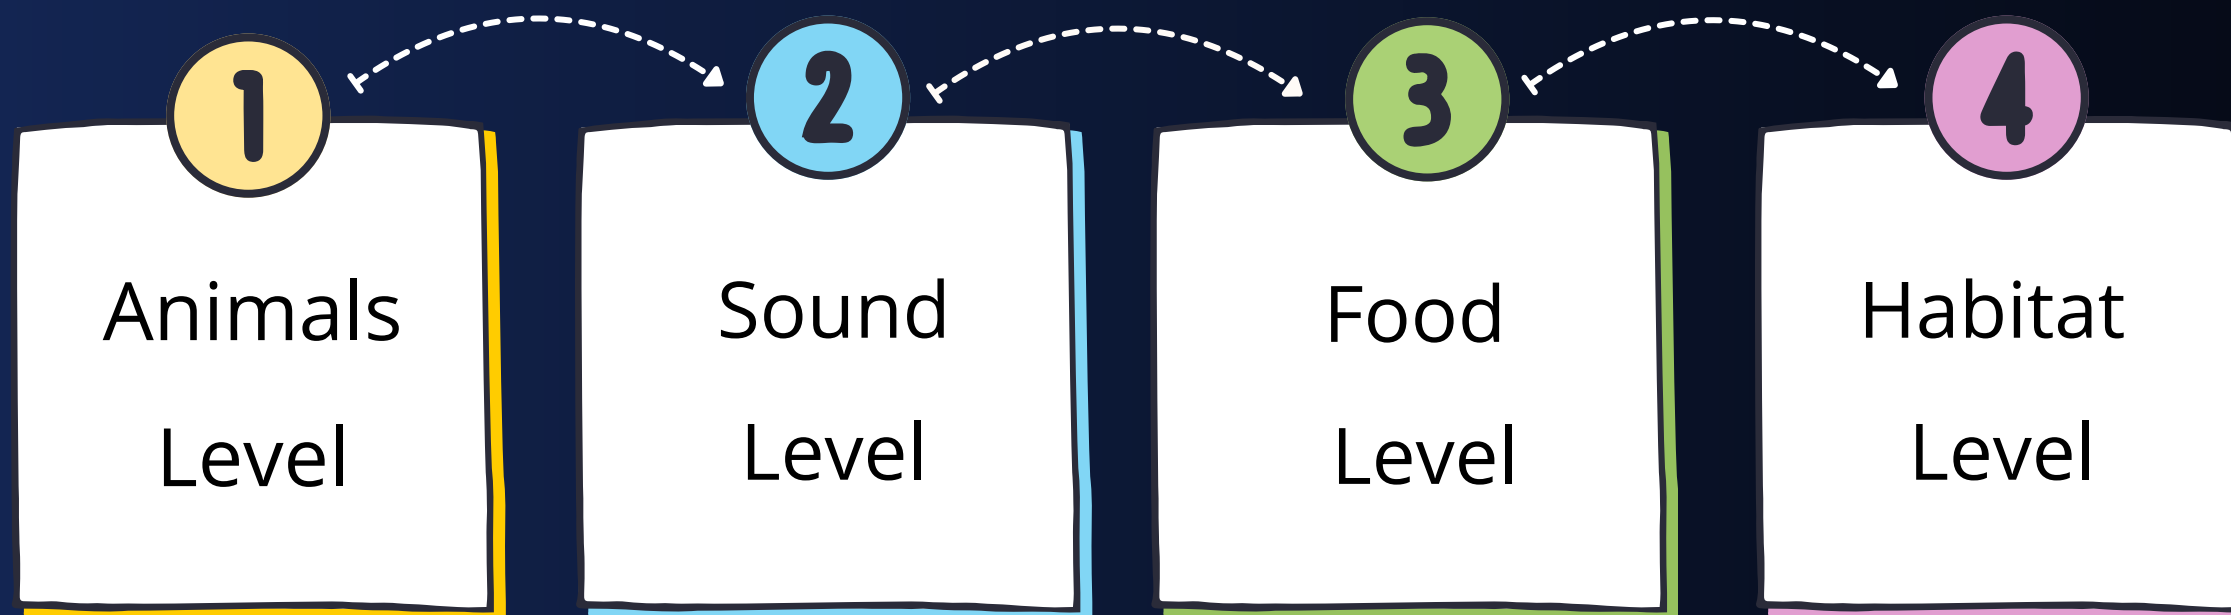

LETTERS PLANET

Letters Planet is designed to help children learn the alphabet in a fun and interactive way. The planet contains different levels

ANIMALS PLANET

Animals Planet is designed to help children discover and learn about animals in a fun and interactive way. The planet includes different levels

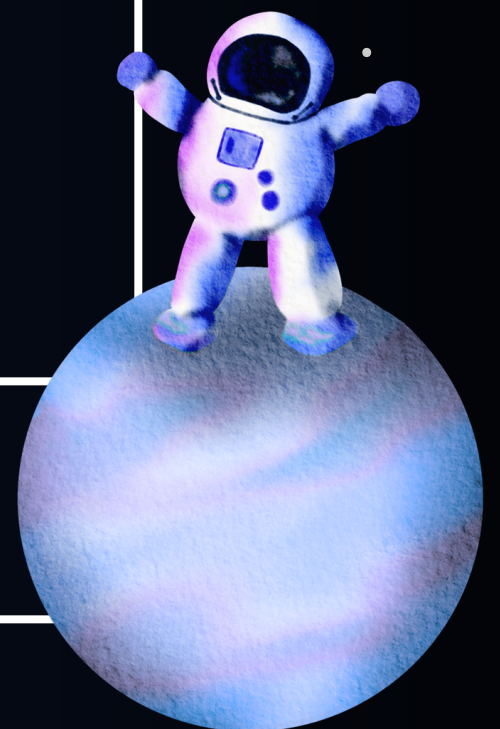

CHALLENGES

- 1** Designing an interface suitable for children
- 2** Keeping the game easy and understandable for kids
- 3** Keeping children excited while learning through the game
- 4** Connecting the game with the database correctly
- 5** Linking all pages and game levels without errors

TEAM MEMBERS TASK

Team Member	Task
Remas	Designed { Basic Level, Basic Quiz1, Basic Quiz 2, Level(add, sub,mul,div,end) } using HTML, CSS, and JavaScript
Ghouyd	Designed { Practice(Add, Sub,Multi,Div) } using HTML, CSS, and JavaScript Connected (Log in, Profile, Quiz (Add, Sub, Multiplication,Division) } using PHP
Lojain	Designed { Index, Profile, Quiz (Add, Sub, Multiplication,Division) } using HTML, CSS, and JavaScript

FUTURE IMPROVEMENTS

01

Improve the
user interface
design

02

Add more
dynamic
features using
PHP and
JavaScript

03

Add more
interactive
features

04

Improve page
performance
and navigation

EXPERIENCE

1

Improved our teamwork and communication skills while working on the project

2

Learned how to connect the website with a database and manage user progress

3

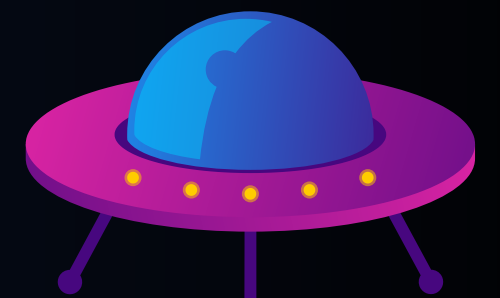

Improved our UI/UX design skills to create an engaging experience for children

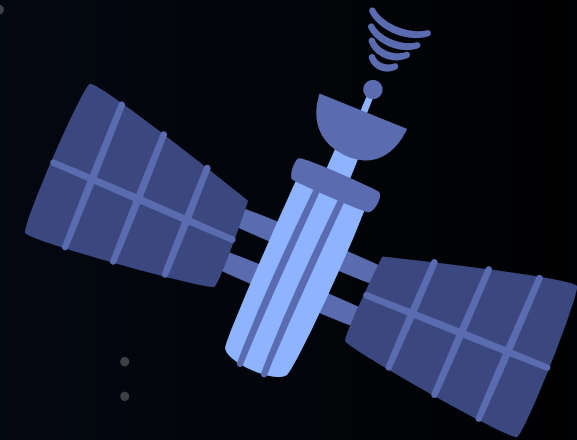

4

Developed problem-solving skills while fixing technical and design challenges

5

Learned how to transform an idea into a complete functional educational project

**THANK
YOU !**
